

A Background to our School Self- Evaluation:

Sutton Park School has been working diligently to improve the educational experience of its students, with a focus on addressing specific areas that require attention. As per the school self-evaluation next steps 2022-2026 document, Sutton Park School engaged in a collaborative internal review to focus on school improvement. In our continuous pursuit of academic excellence and holistic student development, Sutton Park is dedicated to fostering a dynamic and inclusive learning environment.

Our Focus for School Self- Evaluation 2024-2025:

This year, we are dedicated to enhancing the teaching and learning for students through a focused 6 step self-evaluation process. Our focus includes improving attendance monitoring and reporting, integrating digital citizenship into a structured digital skills curriculum for 1st-year students, and empowering our staff with a variety of techniques to recall information from our student's memory, rather than simply reviewing or re-reading material.

Sutton Park School Targets 2024-2025

1. Develop staff confidence and skill set in retrieval practice, aiming for 70% of teachers to use it on a regular basis in their classroom.
2. Achieve 100% compliance in roll submissions by Christmas.
3. Submit all required reports and notifications related to poor attendance to TUSLA by year end.
4. Increase communication to parents by sending notifications when a student reaches 15 days and 20 days of absence in a school year.
5. Integrating Digital Citizenship awareness into a timetabled Digital Skills and Citizenship course throughout the academic year for 1st years.
